A rare breed of professionals

Established in 2000, Speed Computer is one of the pioneers in providing IT infrastructure and solutions on various platforms. Speed Computer solution has been patronized by the corporate world since its inception. Blending intuition and rigor with ground reality business acumen. Speed Computer believes in going beyond the role of a mere solution provider to its clientele. We use technology as a means to empower customers by providing them with user-friendly solutions that enhance their productivity.

At Speed Computer, We deliver measurable business value. We bring greater flexibility, faster time to market, technical expertise, and lower cost-benefit to the doorstep of customers. Here at Speed Computer we push ourselves, we push technology, and we push the boundaries of conventional thinking.

In the lead by setting standards

We specialize in structured solutions for small and medium enterprises. Integrating the components of a reliable IT infrastructure, implementing it to perfection, and ensuring flawless performance with efficient backup all

the way through. We care equally for the individual customer buying on a budget. Our professionals will guide them through configuration decisions, help them to choose the most appropriate peripherals and accessories.

It is customer trust that has kept us in the lead in an intensely competitive marketplace. Our need-focused marketing approach ensures that the customer's money is well invested in the right infrastructure and applications. Speed Computer offers you an extensive choice with the reassurance of total support.

Living by the creed of serving to satisfy

Our philosophy revolves around evolving a long-term relationship with the customer and our core values remain unchanged; integrity, reliability, openness, and the commitment to excel. We are one of UAE's largest resellers with a highly professionalized sales force that will identify your needs right and provide you with the ideal solutions in the most cost-effective manner. We are one of the largest specialty retailers of personal

computers, software, and accessories. We offer a wide range of solutions to cater to the bulk and special needs of small-medium and large businesses. We implement the highest standard of quality of work and services.

In a World of Technology, People Make the Difference

Speed Computer offers a wide range of solutions to cater to the bulk and special needs of small-medium and large businesses. We provide exclusive services to corporate organizations to ensure trouble-free and cost-effective service and maintenance of their IT infrastructure. We also offer special low institutional prices for hardware, software, and peripherals to enable your IT system scalability in accordance with your growing business needs.

Company Value

Our Vision

We envision becoming the leading solutions provider and the customers' most preferred partner in the field of entire IT product sales and services.

Our Mission

We will offer state-of-the-art solutions that satisfy the needs of our customers and exceed their expectations. We shall consistently achieve operational excellence that will enhance customer satisfaction. We will choose our human asset on the basis of diversity, innovation, and result-orientation in order to deliver excellence.

Objectives

We aim to stay ahead in a rapid-growth industry with competence. Agility and futuristic vision. Towards this end we will: Stay at the forefront of new concepts in the realms of hardware, software as well as service. Seek better ways of making it easier for our customers to do business with us. Especially focus on Online Sales & Service to enhance customer convenience and ensure greater cost savings.

Best of Services

- **Precise**
- **Promise**
- **Personalized**

We specialized in Desktop Computing, Server Solutions, Storage Solutions, Networking and Structured Cabling, Security solutions, and package software. We adhere to the highest quality standards and deliver results on time and on budget. We value and promote teamwork, accountability, diversity, positive communication, and individual leadership.

Networking Solutions

We provide you the security you need - and the peace of mind you deserve. In addition to developing a bring your own device (BYOD) strategy and offering a wide range of cost-effective wireless, switching, and routing solutions, we can design, implement and support a custom networking solution that allows you to transfer your data assets safely and securely across multiple platforms and operating systems. So whether you want to redesign your existing network or replace it completely.

Laptop Repair

Speed Computer offers chip-level servicing for Laptop motherboards, Desktop Motherboards, Server Motherboards & Medical Equipment Motherboards. We have 18+ years of experience in our service. We are skilled in replacing BGA CHIPS like ICH, GMCH, and PCH. We also replace other ICs like GPU, IO controller, MOSFET, SMD chips, etc. We also endow with spare parts for LED and LCD, Battery Charger, laptop keyboard, CPU Fan, Laptop Body, Adaptors and Adaptor Cables.

Desktop Repair

Desktop repair since our world has been hugely influenced by the internet, computers have become inevitable these days.

Security & Surveillance

We have skilled and experienced technicians who can analyse your current security, make recommendations to improve, and assist you in implementing a cost-effective, more proactive, and efficient digital security surveillance solution.

Web & Online Solutions

- Website Design
- Digital Marketing
- Online Application Development
- Web Hosting

Solutions can be implemented using several standards, pre-developed applications, or we can custom-build one to meet your needs. We pride ourselves on our ability to build effective business solutions that positively impact your bottom line and customer interaction capabilities.

All web hosting packages are loaded with features and backed by our 99.9% uptime and great customer service. We offer a variety of affordable web hosting solutions.

Remote Solutions

We partner with leading technology vendors to deliver the best remote working solutions for your business. We deliver a high-quality "in-office" experience for those who are out of the office.

Many businesses put in place initial Remote Working solutions to ensure employees can continue to work. The next challenge is to improve system performance, efficiency, and security – all whilst giving staff a great user experience. Organizations are also having to reimagine how they deliver their services digitally.

Audio & Video Conferencing

We deal with the development of such audio/video conferencing solutions and services which guarantee that you enjoy a high success rate in respect to audio conferencing software solutions.

Video conferencing software enables online communication for audio meetings, video meetings, and seminars, with built-in features such as chat, screen sharing, and recording. These applications are implemented to enable long-distance or international communication, enhance collaboration, and reduce travel costs. Employees at every level within an organization can use video conferencing tools to host or attend virtual meetings with fellow employees, company partners, or customers, no matter where the attendees are physically located.

Data Recovery

Speed Computer offers data recovery from hard drives whether it be external or internal and takes you back into the business. No matter how lost is your data, our team of professionals is well driven and is passionate about retrieving the information from all branded

Secure Data Recovery has over a decade of experience in recovering data from all device types including RAID, hard disk drive, flash drives, and more. Our experienced engineers have seen every device failure scenario and boast an overall 96% success rate. We invest heavily in our Research and Development to create and implement innovative data recovery methods for existing and emerging media on the market. This commitment to staying ahead of the curve in a competitive market in addition to our numerous certifications makes us the most reliable data.

AMC Contract

An annual maintenance contract (AMC) is an agreement with a service provider for the repair and maintenance of property used by your company. Typically, AMCs include service support; however, you can add a comprehensive maintenance contract (CMC) that will cover IT support and replacement as well.

Apple Repair

We are the most trusted service center for Apple products like MacBook, iMac and we also undertake to service all models of Apple devices.

Our trained professionals work efficiently to make sure all our customers get the best service possible. We also offer repair and services for other devices like MacBook, iPod, iMac at affordable rates. Free diagnostics and quotes on all repairs come with a lifetime warranty on parts not covering accidental damage. We want all our customers to go away feeling happy with their Mac fixed. Whether it is offering sensible advice or working hard to get your Mac repair back in working order, Speed Computer always provides a great service.

Printer Repair

We consider Printer Services to be a commitment to help you grow your business over the long term, machines – and relationship – at a time. Our smallest customer has just one multifunction device, our largest has several thousand. We have the knowledge and experience to help you manage this cost, and we have the people and systems to track your fleet, respond promptly and competently to your services calls, deliver toner when needed, and invoice you in a way that works best for you.

Our experienced and trained representatives take pride in providing traditional personal service. You will enjoy the continuity of working with the same person every day- a person who knows you and your account in order to create a partnership with the company that is dedicated to servicing all your printing needs.

Hardware

Every organization needs to upgrade its hardware systems to ensure no lags or downtime issues affect its operations. Speed Computer is expert in providing a wide range of hardware solutions for all kinds of businesses. Our hardware and networking solutions ensure the maintenance of your entire computer network. Our hardware solutions cater the office workstations to business-critical servers such that all our systems are procured using branded, quality components that are supplied with a warranty.

Software

Owing to the rapid advancement in technology, it has become essential to be hawk-eyed with highly dependable software. All kinds of business installations need the frequent support of software to be in the race. The demand for result-oriented software solutions has gone substantially higher. People require dedicated and pinpoint working software inclusions for managing their business. Speed Computer is a leading web-based software solution provider that can meet the requirements of businesses for managing their operations at different levels.

Retail

We've been in the IT industry for over two decade now. One of our top strategies for success over the years is learning from our mistakes and successes. We've been able to make sure that we are delivering the best customer service available by putting our customers first.

Point of Sale

Better business decisions are easy when you have got data on your side. Access an extensive reporting ecosystem that informs revenue-generating decisions.

An efficient point-of-sale solution needs to go beyond the transaction with the customer. Improving transaction times to better the in-store experience for both associates and customers, a POS should be easy to use and include more than transactional functionality and your solution needs front-of-house like mobile payment processing, POS, and contactless payments. In a POS system, an easy-to-use interface means that the front-end interactions are efficient and simple, with powerful integrations and activations.

Customer Care

**Think Speed to stay in the lead.
Think Speed to succeed.**

Changing times. Changing technologies.

Speed Computer is all about enabling customers to keep pace with change and face the challenges of change successfully. Every single sale to us is the start of a long-standing relationship. This invariably translates into a feeling of reassurance for the customer. We identify your business needs and offer you seamless support on a day-to-day basis with highly specialized solutions delivered promptly.
